## Glaucoma: "Scale up: How to Reach More Glaucoma Patients Who Need Us"

Moderator: Allison R. Soneru, MD / PC Coordinator: Tom Hsu, MD

**Program Objectives:** The content and format of this educational activity have been specifically designed to fill the practice gaps in the audience's current potential scope of professional activities by:

1. Reviewing the newest AI technology and testing models that can help both comprehensive doctors and glaucoma specialists identify which glaucoma patients need our attention the most.
2. Introducing members to home monitoring tools and asynchronous visit models that can help us scale up and reach more glaucoma patients without straining our existing in-office resources.
3. Identifying areas of opportunity for comprehensive ophthalmologists to intervene and treat, using the currently available MIGS and Direct SLT.
